ABOUT MAKELLOS

Introducing Makellos Cabinetry, the family-owned business that has revolutionized the kitchen cabinet industry with their pursuit of perfection. Founded over a decade ago by a father and son team, Makellos Cabinetry was born out of a desire to provide quality kitchen cabinets that were not only functional, but beautiful as well.

Tired of the subpar imported products distributed locally, the founders of Makellos Cabinetry set out to create their own line of cabinets that would meet their high standards of craftsmanship. With over 40 years of experience as a master carpenter, the father had a keen eye for detail and a deep understanding of what makes a great cabinet. Together with his son, they developed the EVÖK Collection, a series of kitchen cabinets that are not only beautiful but easy to assemble with their evolutionary RTA cabinetry system.

At the heart of Makellos Cabinetry is a commitment to quality and innovation. The eRTA® Cabinet is designed with the latest Threespine® click furniture technology, a revolutionary system that allows for simplified assembly. The result is a cabinet that can be put together in less than a minute, saving time and money on installation.

Makellos Cabinetry takes pride in using only the finest materials, ensuring that each cabinet is not only beautiful but also durable and functional. Their cabinets are made with high-quality wood that is chosen for its durability and flexibility. The team at Makellos Cabinetry understands that the perfect cabinet is not just about the materials but also the design. That's why they offer a variety of styles and finishes, allowing homeowners to create a kitchen that truly reflects their unique style.

From humble beginnings in a retail design center, Makellos Cabinetry has grown to become a leader in the kitchen cabinet industry. With their commitment to quality, innovation, and customer satisfaction, it's no wonder that they have become the go-to choice for homeowners and contractors alike. Choose Makellos Cabinetry and experience the difference that quality and innovation can make in your kitchen.

EVÖK™

COLLECTION

EVÖK COLLECTION

EVÖK YOUR SENSES: EXPERIENCE THE BEAUTY AND QUALITY OF OUR CABINETRY.

The EVÖK Collection by Makellos Cabinetry is an innovative line of kitchen products that combines sleek modern design with cutting-edge functionality.

This collection is designed to meet the evolving needs of modern homeowners who demand both style and substance in their kitchen spaces.

Named after the phrase "Evolutionary Kitchen", the EVÖK Collection represents the culmination of decades of research and development into kitchen design, featuring state-of-the-art materials and advanced features that make cooking and entertaining easier and more enjoyable than ever before.

With its emphasis on innovation and quality, the EVÖK Collection is the perfect choice for homeowners who want to create a kitchen that is both beautiful and functional, providing a space for cooking, entertaining, and creating lasting memories with family and friends.

SIDE PANELS FINISH STYLES

A

– Fastest and Easiest finishing method. Simply add 3/4" Wall or Base end panel.

Wall Items: WEP1430, WEP1436 and WEP1442

Base Items: BEP25

B

– Replace the existing white melamine plywood sides with Wall or Base Integrated panels.

Wall Items: WIP1330, WIP1336 and WIP1342

Base Items: BIP-L and or BIP-R

For items not listed; custom carcass can be made. Please note this will extend lead times. Contact us for availability.

DESIGN INSIGHTS

Our **eRTA**® cabinet boxes feature a universal White box color in and out. When designing, a matching 3/4" panel is required anytime there is an exposed end.

Remember to also use a panel next to appliances or when varying cabinet heights are used.

eRTA® end panels are oversized and designed to be trimmed down to be flushed flush with the door front, giving an inset appearance.

eRTA® base end panels can either be installed with a notched 4-1/2" H toe kick, or without the notched toekick cut out.

- A. Integrated Panel – Notched Toekick panel**
- B. End Panel – No Notched Toekick panel**
(NOTCHED TOEKICK AVAILABLE AS A UPGRADE)

FINISHED WALL INTEGRATED PANELS COMPATIBILITY

Our **eRTA**® wall cabinet boxes feature a universal White box in and out. When designing, a matching 3/4" panel is required anytime there is an exposed end.

B. Sample door set

Item #
SDL

C. Sample mini base

Item #
SMB12

Only available with Legacy Nimbus Door
and White eRTA cabinet

D. Display Center

Item #
COMING SOON

NOTES

LIMITED WARRANTY

Warranty Coverage

PF Sales, LLC DBA Makellos Cabinetry ("Makellos") is pleased to provide the following limited warranty on all cabinets imported to and assembled and sold in the United States and Canada by Makellos. This warranty does not cover cabinets sold or shipped outside of the United States and Canada. This limited warranty is subject to all limitations, exclusions, disclaimers and procedures set forth herein. Makellos warrants to the original purchasing consumer that all cabinets purchased from Makellos will be free from all unnatural defects in material and workmanship under normal residential use for 5 years from the date of the original purchase or as long as the original purchasing consumer owns the home in which such cabinets are installed, whichever is less. This warranty is nontransferable to subsequent owners of the home.

Exclusions

This warranty supersedes any and all previous warranties by Makellos and constitutes the exclusive remedy against Makellos for all defects, damages and workmanship. There are no implied warranties extending beyond the terms of this warranty. Makellos shall not be liable for any indirect, special, punitive, incidental or consequential costs, expenses or damages. This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. It is possible that one or more of the limitations and exclusions in this warranty may not apply to you.

Limitations

This warranty shall become void if the cabinets, cabinetwork, drawer slides or hinges are modified from their original form, improperly installed or damaged prior to or during the installation, or used in any way other than for residential purposes. This warranty covers only parts and materials of the cabinets as supplied by Makellos. This warranty does not cover any products used or installed in connection with cabinets, such as gas or electric appliances, counter tops, or plumbing fixtures. This warranty does not apply to products installed in locations that do not maintain year-round environmental controls. This warranty does not apply to damage caused by transportation, storage, excess dirt, chemicals, exposure to moisture, humidity or excessive heat or cold, nor does it cover defects arising from normal wear and tear, misuse, neglect, accidents, alterations, improper use or failure to ensure proper maintenance, house settling, or acts of God. No installer, retailer, distributor, agent or employee of Makellos has the authority to alter the obligations or limitations in this warranty.

Disclaimers

The following is a brief recap of some of the characteristics of the wood and finishes on the cabinets you are about to purchase. Please read them carefully. If some of these characteristics concern you, please choose something else. We bring these characteristics to your attention so you are aware that Makellos will not be held responsible for these variations in any cabinetry sold or supplied. It is important to note that wood products claimed as defective are most often the result of atmospheric conditions such as excess moisture and humidity. Makellos strongly recommends testing the intended location of the products for such conditions prior to installation.

WOOD AND COLOR VARIATIONS: Wood is a product of nature, and since no two trees are exactly alike, cabinets may vary in color, texture and grain. Naturally occurring characteristics such as variations in color, grain, mineral streaks, pinholes and knots are not considered defects. Color variations are a natural occurrence due to species, age, character of cabinets, and exposure to UV light and sunlight. For these reasons, new and/or replacement cabinets may not exactly match display samples and/or existing cabinets, but is not considered a defect.

WOOD DOORS: Wood, by nature, will undergo expansion and contraction year after year as it compensates and adjusts to ever-changing humidity and temperature. It is very common for center panels on doors to shrink, expand or move during these transitions. Typically, the panel will return to its normal position within a year once it has adjusted to seasonal changes. It is for these reasons that it is very common for doors to warp during these periods. Doors that are warped up to 1/4" are not considered defective. Please Note: It is advisable to check if the door was properly installed, since doors that appear warped are very often the result of improper installation.

PAINTED FINISHES: Birch is a non-porous, smooth grained wood, and wood undergoes periods of expansion and contraction while it adjusts to atmospheric conditions. As such, finish stress lines may become visible on painted cabinets, especially at the joints. Any such occurrence is not considered a defect.

Warranty Performance

If a defect does occur within the terms and conditions of this warranty, the defective part will be repaired or replaced at the sole discretion of Makellos. Makellos will not provide or pay for the cost of removal of any defective product, transportation of any defective product, repair or replacement of any Product, or the installation of repaired or replaced products. Makellos will not be responsible for any shipping damages to the defective, replaced or repaired product. If a defective item has been discontinued or is not available at the time, Makellos reserves the right to replace the item with the most similar item available in Makellos' inventory. Makellos cannot guarantee that the finish of any replacement will exactly match the finish and appearance of the defective item due to the natural aging process of the wood and finishes of the cabinets. Makellos may require, at its sole discretion, that the customer submit a clear photo, or that a company representative view the item being claimed before honoring this warranty.

Claims

To submit a claim covered under this warranty, the original proof of purchase or a copy must be provided. Please email all documents to rma@makellos.com.

Note

Please do not send back any items to Makellos prior to receiving proper authorization from customer service. Makellos takes no responsibility for any items sent back without proper return authorization.

TERMS AND CONDITIONS

Quality Standards

Please review Makellos standards for specifics on the coverage extended in our five year warranty. As mentioned in our warranty, Makellos retains the right to modify said standard sheet at any time. Generally, our RMA department will request a photographic proof of defects, or in some cases, request item be sent back for examination. However, Makellos reserves the right to send a representative down to view damages and determine liability. Method of proof is determined solely by the discretion of Makellos' RMA department. All items sent for return are subject to evaluation by our RMA department. Items deemed not to be defective will not be eligible for credit or coverage under our warranty. Keep in mind that credits for returns are not given until items arrive in Makellos' facility or adequate photographic proof is supplied. Dealer will be charged for replacement items and credit will only be given at such time that proof is received and deemed acceptable.

Center Panel Shrinkage

Because expansion and shrinkage is expected with all natural wood products, defects cannot be determined until six months of settling time have passed. Once six months have passed since the installation, excessive shrinkage should be discussed with our RMA department. Wood by nature, may experience some expansion or shrinkage over time. Therefore, center panels that experience shrinkage up to 1/8" are not considered defective. Cabinetry should be kept in climate controlled areas only. As clearly stated in our warranty, products exposed to extreme moisture, excessive heat or cold, are not covered by Makellos. For natural shrinkage that exceeds 1/8", please contact Makellos for a touch up kit.

Warped Doors

Variances and a minimal amount of warping can be expected with natural wood products. Doors warped up to 1/4" are not considered defective. Panels and moldings are not considered defective unless warping exceeds 2". On many occasions, what appears as a door defect may easily be resolved by adjusting the hinges. Please examine and adjust your hinges before claiming Makellos' limited warranty.

Hairline Cracks

Wood, by nature, may experience a standard amount of expansion and shrinkage; as such, hairline cracks in painted doors may occur. Hairline cracks through which wood is visible, are not considered defects covered by Makellos' three year warranty. Makellos will not be held accountable for color variances due to sunlight, UV light, or atmospheric conditions. For variances that fall outside of the above criteria, Makellos' RMA department will review all concerns and determine if said variance is considered a defect.

Grains and Color Variance

All Cabinetry should be inspected for cosmetic defects before being drilled for hardware. Once holes are made, Makellos will no longer be held liable for any color variances on new cabinets. Wood products feature natural grains of varying shades. These characteristics are determined by nature and are in no way considered a defect in the product. Glaze is an applied finish which may feature slight variances in shading, evenness or thickness. These are common features of glaze and are not considered a defect. Due to natural differences found in wood, cabinets may vary in color, texture and grain. Varied shading in cabinetry stains are expected and are not considered a defect. Makellos will not be held accountable for color variances due to sunlight, UV light, or atmospheric conditions. For variances that fall outside of the above criteria, Makellos' RMA department will review all concerns and determine if said variance is considered a defect.

KD Cabinetry

KD cabinetry is not assembled by Makellos, and as such, are not covered by Makellos warranty and construction related damages.

Pick Ups

Cabinetry picked up from Makellos' warehouse is shipped via carrier of the customer's discretion. Since Makellos cannot guarantee the shipment method, items picked up from Makellos are not covered for damages under the five year warranty. As such, we recommend customers inspect all items before leaving our warehouse.

Accessories

For accessories that have color variances, size differences, or any other concern, please send requested pictures of merchandise to Makellos' RMA department.

Returns

Makellos is committed to providing quality products and excellent service, and will work with customers until satisfied. However, once a cabinet leaves our facility, Makellos does not accept returns unless they fall under the provisions made in our warranty.

Please note; once an RMA has been approved for a replacement, the request for a new item is fulfilled as a standard order. Replacement items therefore have the ETAs of a regular order.
